Today's market landscape can be described as overwhelmingly positive. It seems global demand is significantly outpacing local supply ~ with all wool types experiencing strong lifts. We are finally seeing some reward for the quality of wool being auctioned and reward for the innovation that the industry has been focused on. The main competition has been dominated today from China.

The next sale dated 2nd October 2025 ~ which is in the North Island with 5,700 bales rostered.
