The national wool sale held in Christchurch today delivered another very positive result ~ with all types of XBD wool selling (on average) 20 cents above our last national sale. We attribute part of this increase to the current shortage of wool in the market ~ with volumes sitting well below rostered figures.

Feedback from the trade included comments such as: "We're struggling to meet shipping commitments, It's hard to sell to the world if it's not available."

The main purchases today were for trade into China. The next sale will be held in the North Island, with 6,500 bales rostered.
